Connecting your own device to school wireless

Windows 8

Step 1:
Point your mouse cursor to the lower-right corner of the screen, move the mouse pointer up, and then click “Settings”.
(If you’re using a tablet, Swipe in from the right edge of the screen, and then tap “Settings”.)

Step 2:
click “Available” to see the wireless networks
**Step 3:**
Select “nswdet” to enter the settings. Make sure the “Wi-Fi” switch is ON.

**Step 4:**
Tick the “Connect automatically” checkbox, then click “Connect” button.
Step 5:
Enter the settings as per the picture below, then press “OK” button

Step 6:
You will now get a Certificate warning, press “Connect” button
**Step 7:**
Now you need to enter your proxy details. Enter your Portal username and your portal password, then press “OK” button.

1. Enter your DEC Portal username
2. Enter your DEC Portal password
3. Press the “OK” button

**Step 8:**
Check the school Wi-Fi connection. Open a web browser on your device and you should be able to access Internet.
